This will open the first page of the website known as the HOME page.

At the top of this HOME page as well as every page in the website, there is a row of names at the top of each page known as dropdowns.

This is an expanded view of the dropdowns from the HOME page.

There are multiple ways to explore this website.

1) Using **dropdowns,** this is probably not really the most user friendly for most users.

2) Using the **Quick Subject List** which is a list of all subjects available on the website except the information in the Members section.

3) The **Site Map** which is a handy reference to find a web page that you might have seen earlier and do not remember how to get back to it.

1) USING THE DROPDOWNS:

On most pages, click on one of the names across the top of the page and there will be a sub dropdown list of other options.

As an example of using the HOME page dropdowns, move the cursor to 'Resources' and the dropdown will show a list of resources. Click on one of them to open that page.

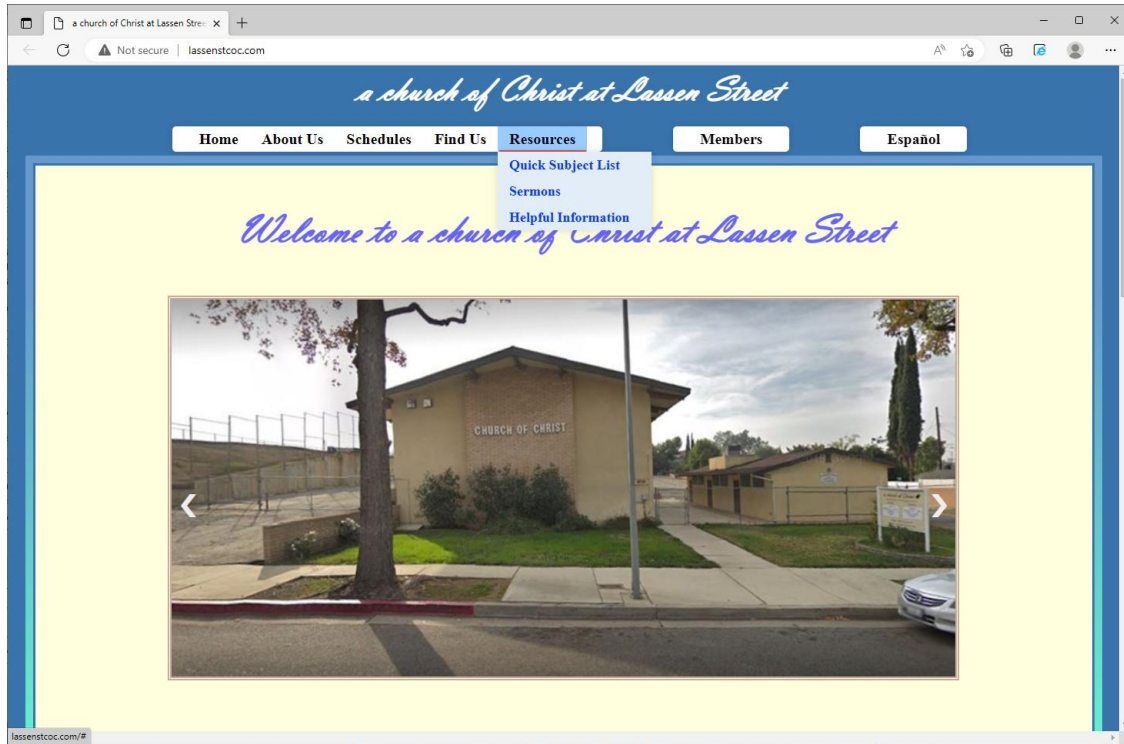

NOTE: some pages will open without having any sub dropdowns.

All dropdowns throughout the web site work this way.

2) USING THE QUICK SUBJECT LIST:

Move the mouse over the 'Resources' dropdown and click the 'Quick Subject List'.

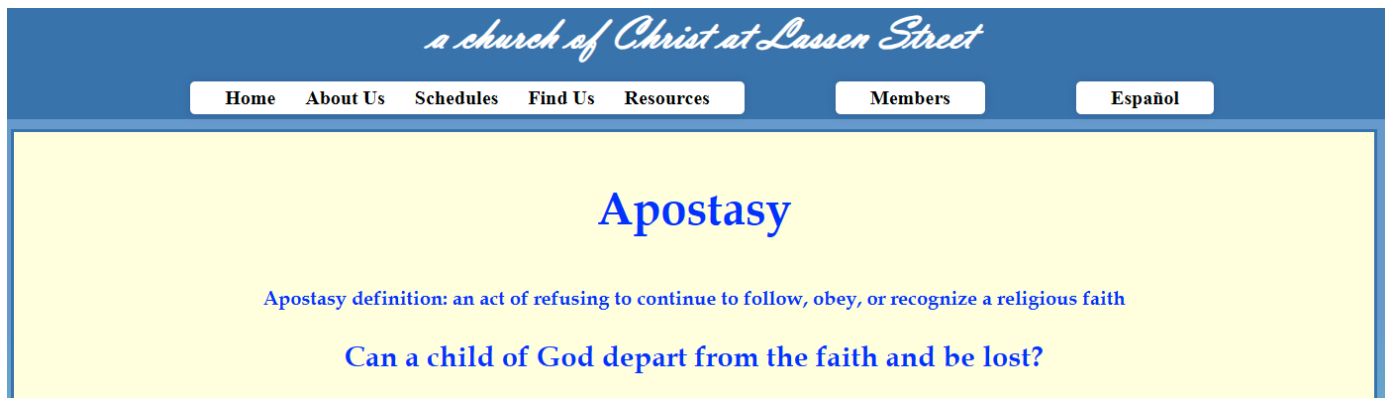

The following page will open where you can select the subject you would to visit.
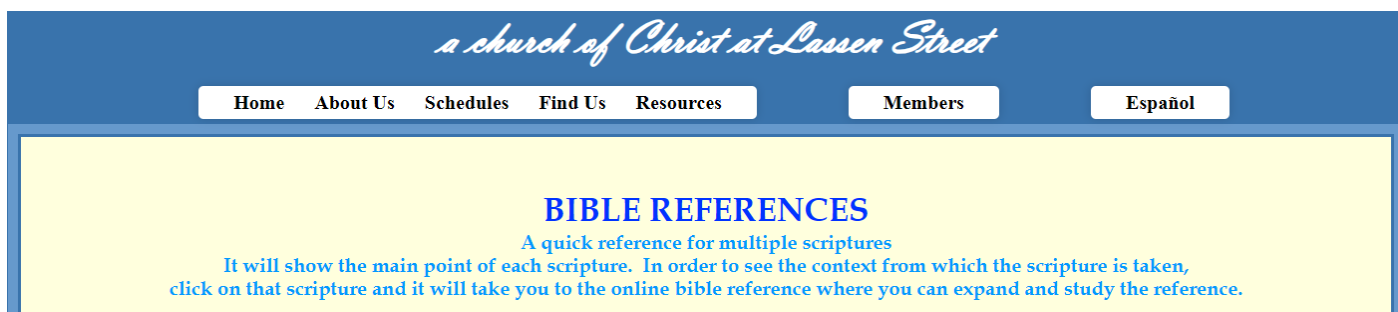

Click on the subject you would like to visit and that page will be opened for you.
